

Table of Contents

| | |
|--|-----------|
| Introduction | xv |
| Chapter 1: ASP.NET 3.5 Essentials | 1 |
| New Features in ASP.NET 3.5 | 2 |
| ASP.NET AJAX Support | 2 |
| The ListView Control..... | 2 |
| The DataPager Control..... | 2 |
| Support for WCF Services..... | 3 |
| WCF Support for RSS, JSON, and Partial Trust | 3 |
| Support for Nested Master Pages at Design Time..... | 3 |
| Merge Tool in ASP.NET 3.5..... | 3 |
| Improved Support for JavaScript Debugging | 3 |
| Support for Microsoft Office 2007 Applications | 4 |
| The ASP.NET Life Cycle | 4 |
| ASP.NET Application Life Cycle on IIS 7.0 | 4 |
| ASP.NET Page Life Cycle..... | 7 |
| Overview of Visual Studio 2008 | 9 |
| New Features in Visual Studio 2008 | 9 |
| Support for Multi-Targeting..... | 9 |
| Support for ASP.NET AJAX and JavaScript Intellisense | 10 |
| Support for Language Integrated Query..... | 10 |
| Improved Deployment..... | 11 |
| Support for Client Application Services..... | 11 |
| Support for Reporting Applications..... | 11 |
| Exploring a Sample ASP.NET 3.5 Web Application | 12 |
| Creating a Sample ASP.NET 3.5 Website..... | 14 |
| Summary | 19 |
| Chapter 2: Developing a Web Application | 21 |
| Specifying a Location for a Web Application..... | 22 |
| File System..... | 22 |
| HTTP | 23 |
| Storing Web Applications Using the FTP Site Option | 26 |
| File Types in ASP.NET 3.5..... | 27 |
| Exploring ASP.NET 3.5 Web Pages | 29 |
| Code Render Blocks | 31 |
| Understanding ASP.NET 3.5 Page Directives..... | 32 |
| The @ Page Directive | 33 |
| The @ Control Directive | 33 |
| The @ Import Directive..... | 33 |
| The @ Implements Directive..... | 33 |
| The @ Register Directive | 33 |
| The @ Assembly Directive | 34 |
| The @ Master Directive..... | 34 |

Table of Contents

| | |
|--|-----------|
| The @ WebHandler Directive | 34 |
| The @ PreviousPageType Directive | 34 |
| The @ MasterType Directive | 34 |
| The @ OutputCache Directive | 34 |
| The @ Reference Directive | 35 |
| Working with Server Controls | 35 |
| Understanding ASP.NET 3.5 Provider Model | 38 |
| ASP.NET 3.5 Coding Models | 39 |
| Single-File Page Model | 39 |
| Code-Behind Page Model | 41 |
| Implementing Code Sharing | 43 |
| Using the Code Directory | 43 |
| Using the bin Directory | 44 |
| Using the Global Assembly Cache | 44 |
| Compilation in ASP.NET 3.5 | 45 |
| Compiling on First Request | 45 |
| Recompiling on Change | 45 |
| Compilation Dependencies | 45 |
| Using the Merge Tool | 45 |
| Summary | 46 |
| Chapter 3: Application Structure and State | 47 |
| Structure of an Application | 48 |
| The Application Domain | 48 |
| The Application Lifetime | 49 |
| The Application Directory Structure | 49 |
| The Global.asax Application File | 50 |
| Using States | 52 |
| Application State | 52 |
| Session State | 52 |
| View State | 53 |
| Using Application State, Session State, and View state | 53 |
| HTTP Handlers | 56 |
| Creating an HTTP Handlers Application | 57 |
| Generic Handlers | 58 |
| Postback | 61 |
| Cross-Page Posting | 61 |
| Summary | 66 |
| Chapter 4: Web Forms: Standard Controls (I) | 67 |
| <i>In Depth</i> | 68 |
| The Control Class | 68 |
| The WebControl Class | 70 |
| The Label Control | 71 |
| The Button Control | 72 |
| The TextBox Control | 73 |
| The Literal Control | 73 |
| The Placeholder Control | 74 |
| The HiddenField Control | 74 |
| The FileUpload Control | 74 |
| Working with CSS | 75 |
| CSS Style Manager | 75 |
| <i>Immediate Solutions</i> | 78 |
| Using CSS in Web Applications | 78 |
| Working with Control Properties | 84 |

| | |
|---|------------|
| Working with Label Controls | 92 |
| Working with Button Controls | 94 |
| Working with TextBox Controls..... | 95 |
| Working with Literal Controls..... | 98 |
| Working with Placeholder Controls | 100 |
| Working with HiddenField Controls | 102 |
| Working with FileUpload Control | 104 |
| Summary | 106 |
| Chapter 5: Web Forms: Standard Controls (II) | 107 |
| <i>In Depth</i> | 108 |
| The Image Control | 108 |
| The ImageButton Control..... | 109 |
| The ImageMap Control | 110 |
| The ListBox Control..... | 110 |
| The DropDownList Control | 111 |
| The LinkButton Control..... | 111 |
| The CheckBoxList Control..... | 112 |
| The RadioButtonList Control..... | 113 |
| The Panel Control | 113 |
| The Wizard Control | 114 |
| The Calendar Control..... | 117 |
| The AdRotator Control | 118 |
| <i>Immediate Solutions</i> | 120 |
| Working with Image Controls | 120 |
| Working with ImageButton Controls | 123 |
| Working with ImageMap Controls..... | 125 |
| Working with ListBox Controls..... | 128 |
| Working with DropDownList Controls | 133 |
| Working with LinkButton Controls..... | 135 |
| Working with CheckBoxList Controls..... | 138 |
| Working with RadioButtonList Controls | 140 |
| Working with Panel Controls | 143 |
| Working with Wizard Controls | 146 |
| Working with Calendar Controls..... | 152 |
| Creating the AdRotator Control..... | 154 |
| Summary | 156 |
| Chapter 6: Navigation Controls: TreeView, Menu, and SiteMapPath..... | 157 |
| <i>In Depth</i> | 158 |
| Using the TreeView Class..... | 158 |
| The TreeView Control..... | 160 |
| Adding Nodes to a TreeView Control Dynamically | 162 |
| Adding Nodes to a TreeView Control Using the DataSource Property | 162 |
| Adding Nodes to a TreeView Control at Design Time | 162 |
| Using the Menu Class | 163 |
| The Menu Control..... | 165 |
| Using the XmlDataSource Class | 166 |
| Using the XmlDataSource Control | 167 |
| Menu Display Properties | 168 |
| Menu Styles | 169 |
| Using the SiteMapPath Class | 169 |
| The SiteMapPath Control | 170 |
| Data Retrieval Using the SiteMapPath Control..... | 171 |

Table of Contents

| | |
|---|------------|
| SiteMapPath Behaviors | 171 |
| SiteMapPath Appearance..... | 172 |
| SiteMapPath Style | 172 |
| SiteMapPath Templates..... | 172 |
| Immediate Solutions | 173 |
| Creating the TreeView Control..... | 173 |
| Generating TreeView from a Database | 182 |
| Creating Static Menus | 189 |
| Creating Dynamic Menus..... | 192 |
| Creating SiteMapPath | 195 |
| Summary | 198 |
| Chapter 7: Validation Controls..... | 199 |
| In Depth | 200 |
| The BaseValidator Class | 200 |
| The RequiredFieldValidator Control..... | 201 |
| The RangeValidator Control | 201 |
| The RegularExpressionValidator Control..... | 202 |
| The CompareValidator Control..... | 203 |
| The CustomValidator Control | 203 |
| The ValidationSummary Control..... | 204 |
| Immediate Solutions | 206 |
| Using the RequiredFieldValidator Control | 206 |
| Using the RangeValidator Control..... | 208 |
| Using the RegularExpressionValidator Control | 209 |
| Using the CompareValidator Control | 211 |
| Using the CustomValidator Control..... | 213 |
| Using the ValidationSummary Control | 215 |
| Summary | 216 |
| Chapter 8: Introducing Web Parts Controls | 217 |
| In Depth | 218 |
| The WebPartManager Control..... | 218 |
| The ProxyWebPartManager Control | 228 |
| The WebPartZone Control..... | 229 |
| The CatalogZone Control | 232 |
| The DeclarativeCatalogPart Control..... | 234 |
| The PageCatalogPart Control | 237 |
| The ImportCatalogPart Control..... | 238 |
| The EditorZone Control..... | 239 |
| The LayoutEditorPart Control | 242 |
| The AppearanceEditorPart Control..... | 244 |
| The PropertyGridEditorPart Control..... | 245 |
| The BehaviorEditorPart Control..... | 246 |
| The ConnectionsZone Control..... | 248 |
| Immediate Solutions | 251 |
| Using the WebPartManager Class | 251 |
| Creating the WebPartManager Control in Code..... | 251 |
| Creating the WebPartZone Control in Code | 253 |
| Creating the CatalogZone Control in Code..... | 256 |
| Creating the PageCatalogPart Control in Code | 258 |
| Creating the EditorZone Control in Code | 261 |
| Creating the PropertyGridEditorPart Control in Code | 263 |

| | |
|---|------------|
| Creating the ConnectionsZone Control in Code | 266 |
| Summary | 268 |
| Chapter 9: Working with Database Controls | 269 |
| <i>In Depth</i> | 270 |
| The GridView Control..... | 270 |
| The DataList Control | 275 |
| The DetailsView Control | 277 |
| The FormView Control | 281 |
| The ListView Control | 285 |
| The Repeater Control | 289 |
| The DataPager Control..... | 290 |
| The SqlDataSource Control | 291 |
| The AccessDataSource Control..... | 293 |
| The LinqDataSource Control | 294 |
| The ObjectDataSource Control | 296 |
| The XmlDataSource Control | 298 |
| The SiteMapDataSource Control..... | 300 |
| <i>Immediate Solutions</i> | 301 |
| Using the SqlDataSource Control..... | 301 |
| Using the AccessDataSource Control | 307 |
| Using the LinqDataSource Control | 310 |
| Using the ObjectDataSource Control..... | 314 |
| Using the XmlDataSource Control..... | 318 |
| Using the GridView Control..... | 321 |
| Using the DataList Control..... | 323 |
| Using the DetailsView Control..... | 325 |
| Using the FormView Control..... | 327 |
| Using the Repeater Control..... | 329 |
| Using the ListView and DataPager Controls | 331 |
| Summary | 336 |
| Chapter 10: Developing ASP.NET AJAX Applications | 337 |
| <i>In Depth</i> | 338 |
| AJAX – A New Approach..... | 338 |
| Exploring JavaScript | 338 |
| Introducing XHTML | 339 |
| Introducing CSS..... | 339 |
| Exploring DOM | 339 |
| Introducing XMLHttpRequest Object..... | 340 |
| Need for AJAX | 341 |
| AJAX and Other Technologies..... | 341 |
| ASP.NET AJAX Architecture | 342 |
| Client-Side Architecture | 342 |
| Server-Side Architecture | 344 |
| AJAX Server or Extension Controls | 345 |
| The ScriptManager Control | 345 |
| The ScriptManagerProxy Control..... | 348 |
| The Timer Control..... | 349 |
| The UpdatePanel Control | 349 |
| The UpdateProgress Control..... | 350 |
| ASP.NET AJAX Control Toolkit Extenders and Controls..... | 351 |

| | |
|---|------------|
| Immediate Solutions | 356 |
| Differentiating Between AJAX and Non-AJAX Applications | 356 |
| Creating a Simple non-AJAX Application | 356 |
| Creating a simple AJAX Application | 358 |
| Using AJAX Server Controls | 361 |
| Timer Control | 361 |
| UpdateProgress Control | 363 |
| Installing the ASP.NET AJAX Control Toolkit | 366 |
| Using the ASP.NET AJAX Control Toolkit | 369 |
| Using AlwaysVisibleControlExtender | 370 |
| Summary | 372 |
| Chapter 11: Inside Master Pages and Themes | 373 |
| In Depth | 374 |
| Need for Master Pages and Themes | 374 |
| Understanding Master Pages | 374 |
| Simple Master Page | 375 |
| Nested Master Pages | 375 |
| Understanding ASP.NET AJAX Master Pages | 376 |
| Understanding Themes | 376 |
| Types of Themes in ASP.NET 3.5 | 376 |
| Understanding the StyleSheetTheme Attribute | 377 |
| Immediate Solutions | 378 |
| Creating Master Pages | 378 |
| Simple Master Pages | 378 |
| Creating Nested Master Pages | 382 |
| Configuring Master Pages | 384 |
| Modifying Content on the Master Page from the Content Page | 384 |
| Displaying Properties and Methods Using a Master Page | 388 |
| Loading Pages Dynamically | 391 |
| Creating Themes | 397 |
| Applying Themes at Control and Runtime Levels | 399 |
| Applying Themes to a Single Page | 402 |
| Using the StyleSheetTheme Attribute | 405 |
| Summary | 406 |
| Chapter 12: Developing Rich-Interactive Applications with Silverlight..... | 407 |
| In Depth | 408 |
| Main Features of Silverlight | 408 |
| Improved Programming Model | 408 |
| Comprehensive UI Framework | 409 |
| Support for Deep Zoom Technology | 409 |
| Support for 2-D Graphics, Animations, and Multimedia | 409 |
| Support for Networking | 409 |
| Architecture of Silverlight | 410 |
| The .NET Framework for Silverlight | 410 |
| The Core Presentation Framework | 410 |
| Installation of Silverlight | 411 |
| Silverlight Applications in Visual Studio 2008 | 415 |
| Controls in Silverlight Applications | 420 |
| Silverlight and ASP.NET | 424 |
| ASP.NET Server Controls for Silverlight | 426 |

| | |
|--|------------|
| Immediate Solutions | 430 |
| Changing the Size of the Silverlight Plug-in | 430 |
| Using Silverlight Controls | 433 |
| Using the DatePicker Control..... | 433 |
| Using the GridSplitter Control..... | 437 |
| Using the MediaElement Control | 439 |
| Using the MediaPlayer Control to Embed Media..... | 442 |
| Summary | 444 |
| Chapter 13: Caching in ASP.NET 3.5..... | 445 |
| In Depth | 446 |
| Caching in ASP.NET | 446 |
| What is Caching?..... | 446 |
| Output Caching in ASP.NET | 446 |
| The Location Attribute | 448 |
| The Shared Attribute | 448 |
| The VaryByCustom Attribute | 448 |
| The VaryByParam Attribute..... | 449 |
| Partial-Page Output Caching | 449 |
| The Disk Output Cache..... | 450 |
| Post-Cache Substitution and Substitution Control..... | 450 |
| Data Caching | 451 |
| Adding Items in Cache | 452 |
| Retrieving Data from Cache | 454 |
| Deleting Items from Cache | 454 |
| SQL Cache Notification and SQL Cache Invalidation | 454 |
| Understanding Cache Dependencies..... | 455 |
| Cache Profiles and Configuration | 455 |
| The System.Web.Caching.Cache Class..... | 456 |
| Immediate Solutions | 457 |
| Using Output Caching | 457 |
| Using Output Caching with the VaryByParam Attribute..... | 459 |
| Using Data Caching..... | 462 |
| Using Cache Profiles..... | 467 |
| Using the Substitution Control..... | 470 |
| Summary | 472 |
| Chapter 14: ASP.NET Web Services..... | 473 |
| In Depth | 474 |
| Introduction | 474 |
| Infrastructure of ASP.NET Web Services..... | 475 |
| Web Services Directory | 475 |
| Web Services Discovery | 476 |
| Web Services Description..... | 476 |
| Web Services Wire Format..... | 478 |
| The Code Model of ASP.NET Web Services..... | 479 |
| The WebService Directive | 479 |
| The Code-Behind File | 480 |
| ASP.NET AJAX and Web Services..... | 481 |
| ASP.NET AJAX Client Architecture for Web Services..... | 481 |
| ASP.NET AJAX Server Architecture for Web Services | 483 |
| Immediate Solutions..... | 484 |
| Creating a Web Service | 484 |
| Creating a Web Service Project | 484 |

Table of Contents

| | |
|--|------------|
| Declaring the Web Service | 485 |
| Setting the WebService Attribute..... | 486 |
| Declaring Methods for a Web Service..... | 487 |
| Deploying a Web Service..... | 489 |
| Using the Web Service | 492 |
| Using the EnableDecompression Property..... | 497 |
| Working with ASP.NET AJAX Enabled Web Services..... | 498 |
| Creating the ASP.NET AJAX-Enabled Web Service..... | 498 |
| Calling the ASP.NET AJAX Enabled Web Service from Script | 500 |
| Summary | 502 |
| Chapter 15: WCF Services | 503 |
| <i>In Depth</i> | 504 |
| Need for WCF..... | 504 |
| Architecture of WCF..... | 504 |
| The Contracts Layer..... | 505 |
| The Service Runtime Layer..... | 505 |
| The Messaging Layer..... | 506 |
| The Activation and Hosting Layer | 506 |
| Features of WCF..... | 506 |
| Endpoint Support..... | 507 |
| Endpoint Behavior | 507 |
| Improved Transport Layer | 507 |
| Queuing Support..... | 507 |
| Improved Transactional Process..... | 508 |
| Improved Security..... | 508 |
| Hosting Support on Various Servers | 508 |
| AJAX Integration and JSON Support..... | 508 |
| WCF Clients | 508 |
| WCF Tools..... | 509 |
| <i>Immediate Solutions</i> | 511 |
| Creating WCF Services..... | 511 |
| Configuring WCF Service..... | 513 |
| Deploying WCF Services | 520 |
| Building WCF Clients..... | 523 |
| Summary | 526 |
| Chapter 16: Application Tracking | 527 |
| <i>In Depth</i> | 528 |
| Introducing Application Monitoring..... | 528 |
| Performance Counters..... | 528 |
| Health Monitoring with Web Events..... | 532 |
| Debugging an Application..... | 533 |
| Application Tracing Using ASP.NET Trace..... | 533 |
| Exception and Error Handling..... | 535 |
| <i>Immediate Solutions</i> | 536 |
| Using the Debug Mode | 536 |
| Using Breakpoints..... | 539 |
| Using the <customErrors> Element..... | 541 |
| Using the Page_Error Method | 544 |
| Using the Application_Error Method..... | 547 |
| Using Events for Monitoring | 547 |
| Using the Page Directive with the Trace Attribute | 548 |

| | |
|---|------------|
| Using the Trace Class Methods | 549 |
| Summary | 550 |
| Chapter 17: Managing Web Applications..... | 551 |
| <i>In Depth</i> | 552 |
| Need to Manage Applications | 552 |
| The ASP.NET Configuration File | 552 |
| The Process Model Configuration..... | 553 |
| Reactive Process Recycling..... | 553 |
| Proactive Process Recycling..... | 553 |
| The ASP.NET MMC Snap-In Tool | 554 |
| The ASPNET_REGIIS Tool..... | 554 |
| The Web Site Administration Tool..... | 555 |
| The Aspnet_regsql Tool..... | 556 |
| <i>Immediate Solutions</i> | 557 |
| Verifying the Configuration Settings..... | 557 |
| Using the ASPNET_REGIIS Tool | 561 |
| Using the ProtectSection Method..... | 562 |
| Using the Web Site Administration Tool | 566 |
| Using the Security Tab..... | 567 |
| Using the Application Tab..... | 571 |
| Using the Provider Tab | 574 |
| Using the Aspnet_regsql Tool..... | 575 |
| Configuring ASP.NET Applications in IIS | 576 |
| Summary | 578 |
| Chapter 18: Introducing Login Controls | 579 |
| <i>In Depth</i> | 580 |
| Introducing the Membership Service | 580 |
| The Login Control..... | 581 |
| The LoginView Control | 583 |
| The LoginStatus Control..... | 585 |
| The LoginName Control..... | 586 |
| The PasswordRecovery Control..... | 586 |
| The CreateUserWizard Control..... | 590 |
| The ChangePassword Control..... | 594 |
| <i>Immediate Solutions</i> | 599 |
| Implementing Authentication in ASP.NET Using Login Controls | 599 |
| Summary | 606 |
| Chapter 19: Working with User Profiles..... | 607 |
| <i>In Depth</i> | 608 |
| Introducing User Profiles | 608 |
| Understanding ProfileProvider Class..... | 609 |
| Anonymous Profiles | 610 |
| Authenticated Profiles..... | 612 |
| <i>Immediate Solutions</i> | 614 |
| Using Complex Data Types..... | 618 |
| Creating Authenticated Profiles..... | 623 |
| Creating Custom Profile Providers..... | 639 |
| Migrating Profiles | 644 |
| Summary | 648 |

| | |
|---|------------|
| Chapter 20: Security in ASP.NET | 649 |
| <i>In Depth</i> | 650 |
| Introducing Code Verification and Security in .NET Framework | 650 |
| Type-Safe and Verifiably Type-Safe MSIL Code | 651 |
| Introducing Authentication and Authorization | 653 |
| Role-Based Security | 654 |
| Principal Object | 654 |
| Identity Object | 655 |
| Role-Based Security Checks | 656 |
| Role-Based Security in ASP.NET Applications | 660 |
| All about Membership Feature | 679 |
| ActiveDirectoryMembershipProvider | 679 |
| SQLMembershipProvider | 681 |
| The Membership Class | 682 |
| MembershipUser Class | 683 |
| <i>Immediate Solutions</i> | 684 |
| Managing Roles and Users | 684 |
| Using Anonymous Authentication in ASP.NET | 691 |
| Using Windows Authentication in ASP.NET | 693 |
| Using Forms Authentication in ASP.NET | 702 |
| Using Impersonation in ASP.NET Applications | 708 |
| Creating User Using Membership Class | 712 |
| Validating and Retrieving a User | 716 |
| Using the ItemUpdating Event | 720 |
| Summary | 728 |
| Chapter 21: Deploying Web Applications | 729 |
| <i>In Depth</i> | 730 |
| Enhancements in Deployment Techniques | 730 |
| Windows Installer Deployment | 730 |
| Deploying an Application Using the Windows Installer Deployment Technique | 731 |
| Distributable Media | 731 |
| Web Setup Projects | 731 |
| Cab File Projects | 732 |
| XCOPY Deployment | 732 |
| Advance Options | 733 |
| File System Editor | 733 |
| Registry Editor | 734 |
| File Types Editor | 734 |
| User Interface Editor | 735 |
| Custom Actions Editor | 735 |
| Launch Conditions Editor | 736 |
| The Copy Web Site Deployment Tool | 736 |
| <i>Immediate Solutions</i> | 738 |
| Deploying a Windows Application Using Windows Installer | 738 |
| Web Application Deployment | 738 |
| Windows Installer | 739 |
| XCOPY Deployment | 743 |
| Copy Web Site Deployment | 743 |
| Summary | 744 |
| Glossary | 745 |
| Index | 755 |
| What's on the CD-ROM | 757 |
