Introduction xix

Chapter 1: Introduction 1

Introducing the ERP Systems 2

Exploring Leading ERP Systems 3

Need of SAP 6

Introducing SAP 7

History of SAP 7

Exploring Evolution of SAP and Various SAP Products 8

Discussing Versions of SAP 9

Identifying the SAP Version in Use 10

Explaining SAP R3 (Three Tier Architecture) 11

Discussing the Modular Approach 12

Exploring various SAP Modules 12

Introduction to SAP Net weaver Technology 14

Exploring EHP – the Modern Method of Software Upgrades 15

Looking Forward 15

Summary 16

Chapter 2: Basic Concepts of SAP System 17

What is a Client? 18

Different Clients Available with SAP 21

Web GUI 21

SAP GUI 22

Logging into SAP 24

Methods of Executing Transactions in SAP 29
SAP Easy Access Menu 29
TCodes 30
Navigation skills 31
Basic Navigation Skills 32
Error Message and Warning Message 33
Error Message 33
Warning Message 34
Navigating in TCode 35
Creating a New Session 36
Managing Favorites 37
Logging Off 39
Advanced Navigation skills 40
Searching Menu Path for a TCode 40
Customizing the GUI 42
Copying the Amount 44
Posting a Transaction 46
Command Field shortcuts for TCode Execution 48
Summary 48

Chapter 3: Implementation Tools 49

Introduction to Implementation Tools 50
Accelerated SAP Implementation (ASAP) Roadmap 51
SAP Reference IMG 51
Introduction to Solution Manager 55
Introduction to System Landscape 55
Introduction to Transport Requests 56
Introduction to ABAP 58
Introduction to LSMW 60
Summary 62

Chapter 4: Introduction to SAP Finance and Controlling Modules 63

Introduction to the FI Module 64
Conceptual Design of the FI Module 64
Introduction to the CO Module 68
Conceptual Design of the CO Module 68
Difference between FI and CO Modules 69

Integration of FI, CO, and Other Modules 70
Summary 70

Chapter 5: Enterprise Structure 71

What is Enterprise Structure? 72
Why is it Needed? 72
Basic Building Blocks 73
Financial Accounting 73
Controlling or Management Accounting 74
Materials Management 75
Sales and Distribution 75
Basic Concepts of FI Enterprise Structure 76
Enterprise Structure In Nutshell 79
Summary 80

Chapter 6: SAP FI GL 81

Basic GL Configuration 82
Defining Company 85
Configuring Company Code 88
Assigning Company Code to Company 92
Creating Chart of Accounts 93
Assigning Company Code to Chart of Accounts 96
Defining Account Group 97
Creating Posting Period Variant 100
Opening and Closing Posting Periods 101
Assigning Posting Period Variant to Company Code 103
Maintaining Fiscal Year Variant 104
Assigning Company Code to Fiscal Year Variant 105
Advanced GL Configuration 106
Company Code Settings in Global Parameters 107
Define Field Status Variants 108
Assign Company Code to Field Status Variant 109
Retained Earnings Account 110
Document Types 111
Tolerance Groups for Employees 112
Defining Tolerance Groups for Employees 112
Assign Users to Tolerance Groups 113

Configuration for Maximum Exchange Rate Differences 114
Configuration for Parallel Currencies 115
Configuration for Automatic Clearing 117
Configuration for Foreign Currency Valuation 118
Configuration for Regrouping of GR/IR Clearing 120
Financial Statement Version 122
Configured FI Transactions In Action 123
FS00 - Edit GL Account Centrally 124
FB50L - Enter G/L Account Document for Ledger Group 125
FBCJ - Cash Journal Posting 126
FAGLB03 - Display Balances (New) 127
Summary 128

Chapter 7: New GL 129

Why SAP introduced New GL? 130
Basic concepts of New GL 130
Configuring New GL 132
Configuring Multiple Ledgers 138
Activating the New GL 148
Online document splitting 154
New GL transactions In Action 170
FB01L-Enter General Posting for Ledger Group 170
FAGLB03 - Display Balances (New) 171
FAGLL03-Display/Change Items (New) 172
Summary 174

Chapter 8: SAP AR, AP & Bank Accounting 175

Configuring Account Groups for Customers and Vendors 176
Creating Account Groups for Customers 176
Creating Account Groups for Vendors 184
Defining Screen Layout 190
Creating Screen Layout for Customers 191
Creating Screen Layout per Activity for Customers 194
Creating Number Ranges for Customer Accounts 196
Assigning Number Ranges to Customer Account Groups 200
Creating Screen Layout for Vendors 202

Creating Screen Layout per Activity for Vendors 205
Creating Number Ranges for Vendor Accounts 207
Assigning Number Ranges to Vendor Account Groups....210
Deleting Customer Data 212
Configuring Payment Terms 214
Defining Terms of Payment for Installment Payments....217
Configuring Payment Block Reasons 222
Define Default Values for Payment Block 224
Configuring Automatic Payment Program.... 226
Setting the Company Codes for Payment Transactions....227
Set Up Paying Company Codes for Payment Transactions 228
Set Up Payment Methods per Country for Payment Transactions 230
Set up Payment Methods per Company code for Payment Transactions 233
Set Up Bank Determination for Payment Transactions 235
Configuring the House Bank 239
Configuring the Bank Reconciliation Statement 245
Global Settings for Electronic Bank Statement....246
Configuring the Manual Bank Reconciliation 251
Create and Assign Business Transactions....251
Define Variants for Manual Bank Statement....253
Electronic Bank Reconciliation 257
Exploring Dunning 260
Defining Dunning Areas....261
Defining Dunning Keys 264
Defining Dunning Block Reasons 266
Defining Dunning Procedures 268
Special GL Transactions 276
Down Payments Made 276
Down Payments Received.... 279
Summary 282

Chapter 9: Integration....283

Concept of Automatic Account Assignment 284
FI – AA Integration 284
FI – CO Integration.... 285

FI – MM Integration 285
FI – SD Integration 288
FI – PP Integration 291
Issue of Raw Material to Production Order 291
Production of Finished Goods 291
Completion of Production 292
Account Assignments for Receipts and Payments 292
Rounding Differences of Receipts and Payments 292
Underpayments 294
Bank Charges 295
Overpayments 297
Exchange Rate Difference 299
Summary 300

Chapter 10: Business Processes 301

P2P – End to End Business Cycle 302
O2C – End to End Business Cycle 303
O2C and P2P Transactions in Action 304
O2C Cycle-Transactions in Action 304
Inquiry 304
Quotation 305
Sales Order 305
Delivery 306
Billing 307
P2P Cycle – Transactions in Action 308
Purchase Order 308
Goods Receipt 309
Invoicing 310
Displaying Vendor Balance 311
Outgoing Payment 312
Post Outgoing Payment 313
Down Payment Request 314
Post Down Payment 315
Summary 316

Chapter 11: Asset Accounting 317

Basic Asset Accounting Configuration 318
Asset Sub Ledger Concept in SAP 318
Creating /Copying Depreciation Areas 319
Specify Description of Chart of Depreciation 322
Copy/Delete Depreciation Areas 323
Assignment of Depreciation Areas to company Code 326
Input Tax Indicator Configuration 327
Screen Layout Rules 328
Account Determination Rules 330
Assign G/L Accounts 332
Advanced Asset Accounting Configuration 336
Define Asset Classes 336
Define Number Ranges 339
Specify Financial Statement Versions for Asset Accounting 342
Complex Depreciation Calculation Procedures 345
Determine Depreciation Areas for Unplanned Depreciation 345
Setting up of Depreciation Areas and Depreciation Key 347
Define Cut off Value key 349
Defining the Base Methods, Declining Balance Methods, and Multilevel Methods 352
Define Base Methods 352
Define Declining Balance Methods 354
Define Maximum Amount Method 357
Define Multi-Level Method 359
Maintaining Period Controls 361
Pre-Production Go Live Activities and Their Configuration 363
Transfer of Opening Balances 364
Activate Company Code 366
Configured Asset Accounting in Action 368
AS01 - Create Asset master Record 368
AW01N - Asset Explorer 371
Summary 372

Chapter 12: Controlling AKA Management Accounting 373

Introduction to SAP CO 374
Introduction to Various SAP CO Sub Modules 376
Summary 378

Chapter 13: SAP Cost Center Accounting 379

Basic Concepts 380
Maintaining Controlling Area Settings 381
Maintain Number Ranges for Controlling Documents 383
Maintain Versions 384
Defining active modules 388
Profit center 390
Profitability Analysis 391
Internal Orders 392
Assigning Company Code to Controlling Area 393
Multiple Valuation Approaches / Transfer Prices 395
Maintaining Currency and Valuation Profile 396
Creating Actual Versions for Parallel Valuations 398
Cost Element Accounting 398
Creation of Various Types of Cost Elements 399
KA01 - Create Primary Cost Element 399
KA06 - Create Secondary Cost Elements 400
Creating Cost Center Hierarchy 402
Defining Cost Center 403
Defining Cost Center groups 404
Defining Activity Types 406
Defining Statistical key figures 407
Creating planning layouts for cost center planning 409
Configuring Various Allocation Cycles 410
Assessment Cycles 414
Create Assessment Cost Elements 414
Define Allocation Structures 415
Define Assessment 417
Indirect Activity Allocation 420
Define Activity Types for Indirect Activity Allocation 421

Define Indirect Activity Allocation 422
Configuring the Splitting Structure 424
Configuring Automatic Account Assignment Table 425
Settings for Reconciliation Ledger 427
Summary 428

Chapter 14: SAP Product Costing & Material Ledger Configuration 429

Basics of Product Costing 430
Maintain Overhead Cost Elements 430
Overhead Keys 430
Cost Sheet 432
Grouping of Overheads 433
Cost Component Structure 435
Define Cost Component Structure 435
Assignment of Cost Component to Cost Element Interval 436
Update of Additive Costs 437
Assignment of Transfer Structure 437
Definition of Cost Component Views 438
Assignment of Organization Units to Cost Component Structure 440
Configuring the Cost Component Groups 440
Cost Estimates 441
Costing Variants 442
Define Costing Variants 442
Valuation Variants 445
Costing Types 447
Different Types of Order 448
PP - PC Integration 451
Check Settings for Manufacturing Orders 451
Check Costing Variants for Manufacturing Orders (PP) 451
Costing Practices Across Different Industries 452
Variance 452
Define Variance Keys 453
Check Variance Variants 453
WIP 454
Define Results Analysis Keys 454
Define Cost Elements for WIP Calculation 456

Settlement Profile 456
Structures 458
Maintain Number Ranges for Settlement Documents 459
Material Ledger 460
Activate Valuation Areas for Material Ledger 460
Configure Dynamic Price Changes 462
Make to Order Costing 462
Check Account Assignment Categories 462
Check Requirements Classes 464
Check Requirements Types 465
Make to Stock Costing 466
Check Control Data for Repetitive Manufacturing Profiles 466
Activate Generation of Cost Log in Repetitive Manufacturing 469
Summary 470

Chapter 15: SAP Profit Center Accounting 471

Basic Concepts 472
Profit Center Settings 472
Creating Dummy Profit Center 473
Configuring Data Flow 475
Creating Profit Center Hierarchy 476
Creating Profit Center 477
Detailed Configuration of Profit Center Accounting 478
Layouts 479
Creating Planning Layout for Costs/Revenue 479
Maintaining Planning Layout for Balance Sheet Accounts 480
Maintaining Planning Layout for Statistical Key Figures 481
Allocation 482
Distribution Cycle 482
Assessment Cycle 482
Transfer Pricing 483
Additional Balance Sheet and Profit and Loss Accounts 485
Account Assignment 486
Profitability Analysis 488
Operating Concern 488
Copy Operating Concern 490

User Defined Characteristics 491
Characteristics Hierarchy 492
Characteristics Derivation 495
Valuation Strategies 496
Cost Estimate 497
Cost Sheet 498
Planning 499
FI, MM - Data Flow 500
SD - Data Flow 501
COPA Assessment Cycle 502
Variance Settlement 503
Reports 503
Summary 504

Chapter 16: In Action 505

FI End User TCodes in Action 506
Master Data 506
Day-to-Day Transactions 507
FB01L - Enter General Posting for Ledger Group 507
FB08 - Individual Reversal 508
FB50 - Enter G/L Account Document 509
FB03 - Display Document 510
Month End 511
S_ALR_87003642 - Open and Close Posting Periods 511
FAGL_FC_VAL - Foreign Currency Valuation (New) 512
F.19 - GR/IR Clearing 513
Period End Closing Activities 514
FAGLGVTR - Balance Carry Forward (New) 514
F.07 - Balance Carry Forward 515
CO End User TCodes in Action 516
Master Data 517
KA01 - Create Primary Cost Element 517
KL01 - Create Activity Type 518
KS01 - Create Cost Center 518
KE51 - Create Profit Center 519

Day-to-Day Transactions 520
Month End 521
KP06 - Change Cost and Activity Inputs Planning 521
OKP1 - Change Period Lock 522
Period End Closing Activities 523
7KE1-Change Plan Costs / Revenues 523
9KE0 - Document Entry in PCA 524
2KES - Balance Carry Forward 525
Summary 526

Appendix A: Useful Configuration TCodes 527

Appendix B: Real Life SAP FICO Project Plan 535

Appendix C: Real Life SAP FICO Blueprint Document 545

Appendix D: FICO Interview Questions 555

Glossary 589
