

CONTENTS

Chapter 1 ■ Getting Started with Windows Presentation Foundation	1
Introduction	2
Main Features of WPF 3.5.....	2
Improved Application Model	2
Improved Controls	2
Support for High-End Text Rendering, Typography, and Documents.....	3
Enhanced Support for 2-D and 3-D Graphics, Animations, and Multimedia.....	3
Support for Data-Validation and Data-Binding Models and LINQ	3
WPF 3.5 Architecture	4
The PresentationFramework Component	4
The PresentationCore Component	4
The WindowsBase Component.....	5
The MIL or Milcore Component	5
WPF 3.5 Class Hierarchy	5
The System.Windows.Threading.DispatcherObject Class.....	5
The System.Windows.DependencyObject Class.....	6
The System.Windows.Freezable Class	6
The System.Windows.ContentElement Class	7
The System.Windows.Media.Visual Class.....	7
The System.Windows.UIElement Class.....	7
The System.Windows.FrameworkElement Class	7
The System.Windows.Controls.Control Class.....	8
The System.Windows.Controls.Panel Class.....	8
The System.Windows.Shapes.Shape Class.....	8
WPF 3.5 Application Model	8
The Application Class	8
Types of WPF Applications.....	9
The WPF 3.5 Designer.....	15
The Solution Explorer	15
The Properties Window	16
The Toolbox	16
The Design View	17
The XAML View.....	20
The Split View Bar	20
The Tag Navigator	21
Compilation and Execution of WPF 3.5 Applications	22
Summary	22

Chapter 2 ■ Working with XAML in WPF		23
Introduction		24
XAML Element Tree		24
XAML Object Elements		25
Creating XAML Elements in the XAML View		25
Creating XAML Elements in the Code-Behind File		27
XAML Attributes		28
Setting Properties Through the Attribute Syntax		28
Setting Properties Through the Property Element Syntax		29
XAML Namespaces		29
Using Namespaces in XAML Code		30
Markup Extensions		31
Summary		32
Chapter 3 ■ Working with WPF Controls and Dialog Boxes		33
Introduction		34
Exploring WPF 3.5 Controls		34
Container Controls		34
Simple Controls		38
Content Controls		41
HeaderedContentControls		45
Items Controls		46
HeaderedItemsControls		49
Miscellaneous Controls		50
Exploring Dialog boxes in WPF		53
The MessageBox		53
The SaveFile Dialog Box		55
The OpenFileDialog Dialog Box		57
The Print Dialog Box		59
Interoperability between Windows Forms and WPF		64
Hosting a Windows Forms Control in a WPF Application		64
Hosting a WPF Control in a Windows Forms Application		66
Summary		68
Chapter 4 ■ Working with Dependency Properties and Routed Events in WPF		69
Introduction		70
Dependency Properties		70
The DependencyProperty Class		71
Precedence of Dependency Property Values		72
Callbacks for Dependency Properties		74
Dependency Property Metadata		77

Custom Dependency Properties.....	78
Attached Properties.....	83
Creating a Custom Attached Property	83
Routed Events	87
Handlers for Routed Events.....	87
Routing Strategies	89
Custom Routed Events	93
Attached Events	96
Summary	98
Chapter 5 ■ Working with WPF Resources, Styles, Triggers, and commands	
Introduction	100
WPF Resources.....	100
Working with Static Resources.....	101
Working with Dynamic Resources.....	102
Exploring Styles in WPF	104
Creating a Style.....	105
Extending an Existing Style.....	105
Exploring Templates in WPF.....	107
The ControlTemplate Template	107
The DataTemplate Template.....	108
Exploring Triggers in WPF.....	109
Property Triggers.....	110
Event Triggers	111
Exploring Commands in WPF	112
Command Sources.....	112
Command Targets.....	113
Command Binding.....	113
Using Commands	113
Summary	114
Chapter 6 ■ Working with Typography in WPF	
Introduction	116
Typography Features in WPF 3.5	116
Text Rendering by Using the Microsoft ClearType Technology.....	116
Support for the OpenType Font Format and International Fonts.....	116
Enhanced Text Application Programming Interfaces.....	117
The Typography Class.....	117
Manipulation of Text using Typography	118
Displaying Special Characters	118
Changing the Style of Capitals, Numerals, and Variants.....	120
Wrapping Text.....	122

Trimming Text	123
Adding Decoration to Text.....	125
Transforming Text.....	127
Animating Text	128
Adding Shadows to Text	130
Applying an Outer Glow to Text.....	131
Summary	132
Chapter 7 ■ Working with Documents in WPF 133	
Introduction	134
Types of WPF Documents	134
Fixed Documents.....	134
The DocumentViewer Control.....	135
Flow Documents	140
Flow Document Controls.....	141
Flow Content Elements	147
Serialization and De-serialization of WPF Documents	152
Summary	152
Chapter 8 ■ Working with Graphics in WPF 153	
Introduction	154
Exploring 2-D Graphics in WPF.....	154
Working with 2-D Shapes.....	154
Working with 2-D Geometries.....	159
Working with 2-D Brushes.....	167
Creating a Reflection Using the Visual Brush.....	173
Working with 2-D Drawings.....	177
3-D Graphics in WPF	178
Working with 3-D Scenes	178
Cameras.....	179
3-D Models and Materials	180
Lights	182
Creation of a 3-D Scene.....	184
Summary	186
Chapter 9 ■ Working with Animations and Multimedia in WPF 187	
Introduction	188
Animation in WPF	188
Essentials of Animation	188
Types of Animation.....	195
Reversing an Animation.....	197
Controlling the Behavior of an Animation.....	198
Multimedia in WPF.....	207

WPF Images.....	207
Audio and Video	211
Summary	216
Chapter 10 ■ Data Binding in WPF 217	
Introduction	218
Introducing the Binding Class.....	218
Introducing the Components of WPF Data Bindings.....	219
Understanding Data Binding Declarations.....	220
Declaring a Data Binding in the XAML Code	220
Declaring a Data Binding in the Code-Behind File	222
Working with Data Binding Sources.....	223
Binding to a CLR Object.....	223
Binding to an Object of the DependencyObject Class.....	229
Binding to an ADO.NET Object	231
Binding to an XML Object	234
Exploring Data Flow Directions.....	237
Understanding the OneTime Binding Mode	237
Understanding the OneWay Binding Mode.....	238
Understanding the TwoWay Binding Mode.....	238
Understanding the OneWayToSource Binding Mode	238
Implementing Data Validation.....	239
Summary	244
Chapter 11 ■ Deploying WPF Applications 245	
Introduction.....	246
Deployment Technologies.....	246
Windows Installer Deployment.....	246
ClickOnce Deployment.....	247
XCopy Deployment	247
Deployment of WPF Standalone Applications	247
Deployment of XBAP.....	250
Summary	254
