

# CONTENTS

<b>Chapter 1 ■ Getting Started with Photoshop CS6</b>	<b>1</b>
Starting Photoshop CS6.....	2
Overviewing the New Features of Photoshop CS6.....	4
Exploring the New Photoshop Interface.....	6
The Menu Bar .....	6
The Options Bar.....	6
The Document Window.....	6
Panels.....	7
The Tools Panel.....	8
Creating a New Document.....	8
Saving a Document.....	10
Exploring File Formats.....	11
File Compression Techniques .....	11
Photoshop Document.....	12
Bitmap.....	12
Encapsulated PostScript.....	12
Tagged Image File Format .....	12
Pixar.....	12
Joint Photographic Experts Group.....	12
Portable Document Format.....	13
Opening an Existing Document .....	13
Working with Tools Panel.....	14
Displaying Hidden Tools .....	14
Move Tool .....	14
Eyedropper Tool .....	15
Content-Aware Move Tool.....	16
Using Screen Modes .....	17
Standard Screen Mode.....	17
Full Screen Mode With Menu Bar.....	18
Full Screen Mode .....	18
Working with Photoshop Views .....	19
Using Zoom Tool .....	19
Using Hand Tool to Navigate the Image Area.....	20

Using Navigator Panel .....	20
Using Guides, Ruler, and Grid .....	21
Using Adobe Mini Bridge .....	22
Exiting Photoshop CS6 .....	23

**Chapter 2 ■ Customizing Photoshop CS6 25**

Working with Workspace.....	26
Selecting a Different Workspace .....	26
Creating a New Workspace .....	27
Deleting a Workspace.....	29
Working with Panels.....	30
Showing and Hiding Panels.....	30
Closing a Panel or a Panel Group .....	31
Making a Panel Float .....	32
Adding a Panel into a Panel Group .....	33
Defining a Shortcut Key.....	34
Customizing Photoshop’s Preferences .....	35
Exploring General Category .....	36
Exploring Interface Category .....	36
Exploring File Handling Category .....	37
Exploring Performance Category .....	38
Exploring Cursor Category .....	38
Transparency & Gamut Category .....	39
Exploring Units & Rulers Category .....	39
Exploring Guides, Grids & Slices Category.....	40
Exploring Plug-Ins Category .....	40
Exploring Type Category .....	41
Exploring 3D Category.....	41
Restoring All Preferences to Default Settings.....	41

**Chapter 3 ■ Understanding Colors and Channels 43**

Understanding the Color Theory .....	44
Selecting a Color Scheme Using a Color Wheel.....	45
Selecting a Color Scheme Using Kuler .....	45
Exploring Photoshop Color Modes.....	46

RGB Color Mode .....	46
CMYK Color Mode.....	47
Indexed Color Mode .....	48
Grayscale Color Mode.....	48
Duotone Color Mode .....	48
Bitmap Color Mode .....	49
Lab Color Mode.....	49
Multichannel Color Mode.....	49
HSB Color Mode.....	49
Changing Color Mode of an Image .....	50
Setting Foreground and Background Colors .....	51
Using Color Picker .....	52
Using Eyedropper Tool.....	53
Using the Color Panel .....	54
Making Color Adjustments .....	54
Levels Adjustment.....	55
Curves Adjustment .....	58
Brightness/Contrast Adjustment.....	60
Hue/Saturation Adjustment .....	60
The Replace Color Command .....	61
Understanding Channels.....	62
<b>Chapter 4 ■ Working with Images</b> .....	<b>63</b>
Comparing Raster and Vector Images .....	64
Understanding Image Resolution .....	65
Understanding Pixel .....	65
Changing the Resolution of an Image.....	66
Changing the Document Size of an Image.....	68
Resizing vs Resampling an Image .....	70
Modifying Images .....	70
Rotating an Image .....	70
Straightening an Image.....	72
Cropping an Image Using Crop Tool .....	73
Cropping an Image Using Perspective Crop Tool.....	75
Adjusting Canvas Size.....	77

Working with Smart Objects.....	78
Creating a Smart Object.....	79
Editing Smart Objects.....	80
Working with Shape Tools.....	82
Working with Pen Tool.....	84
Creating a Path Using Pen Tool.....	84
Adding and Deleting Anchor Points.....	86
Selecting Paths and Anchor Points.....	87
Exploring Convert Point Tool.....	88
Converting a Path into a Selection.....	88
Saving a Path.....	89

**Chapter 5 ■ Making Photoshop Selections 91**

Making a Selection with Selection Tools.....	92
Using Marquee Tools.....	92
Using Lasso Tools.....	95
Using Quick Selection Tool.....	96
Using Magic Wand Tool.....	98
Using the Color Range Command.....	99
Making a Selection Using Pen Tool.....	102
Modifying a Selection.....	103
Expanding a Selection.....	103
Refining Selection Outline.....	105
Making Inverse Selection.....	107
Working with Selections.....	108
Filling a Selection with a Color.....	108
Scaling Selection Outline.....	109
Scaling Actual Pixels.....	111
Warping a Selection using the Transform command.....	112
Using Puppet Warp.....	113
Saving and Loading a Selection.....	116

**Chapter 6 ■ Working with Layers and Masks 119**

Exploring Layers Panel.....	120
Working with Layers.....	122

Creating a New Layer .....	122
Creating a New Layer from a Selection.....	124
Creating a Layer Group .....	125
Hiding and Showing Layers.....	126
Merging Layers .....	127
Aligning and Distributing Layers .....	129
Deleting Layers .....	131
Working with Opacity and Blend Modes .....	132
Changing the Layer Opacity.....	132
Applying Blending Modes.....	133
Exploring Types of Blending Modes .....	135
Working with Layer Styles.....	137
Adding a Layer Style .....	138
Reusing Existing Layer Style .....	140
Removing Layer Styles .....	141
Saving a Layer Style .....	142
Working with Masks.....	143
Creating a Layer Mask.....	144
Creating a Vector Mask.....	146
Creating Channel Masks.....	148
Working with Quick Mask Mode.....	150
<b>Chapter 7 ■ Working with Text</b>	<b>153</b>
Exploring Character and Paragraph Panels .....	154
Creating a Text .....	156
Creating Point Text.....	156
Creating Paragraph Text .....	158
Creating Text on a Path.....	160
Formatting Text using the Options Bar .....	161
Formatting Text using the Character Panel.....	162
Working with Text .....	164
Warping Text .....	164
Checking for Spelling Mistakes.....	165
Rasterizing Type Layers .....	167
Working with Type Mask .....	167

Constraining Text to a Shape .....	170
Working with Character Styles.....	171
Creating Custom Character Style.....	172
Applying a Character Style.....	174
Creating 3D Text.....	174
Adding Layer Styles on Type Layers .....	176

**Chapter 8 ■ Painting and Retouching in Photoshop 179**

Working with Painting Tools .....	179
Using Gradient Tool.....	180
Using Brush Tools .....	185
Using Mixer Brush Tool .....	187
Using Color Replacement Tool .....	190
Using Clone Stamp Tool .....	192
Using Pattern Stamp Tool.....	194
Working with Retouching Tools.....	195
Using Spot Healing Brush Tool.....	195
Using Healing Brush Tool.....	197
Using Patch Tool.....	198
Using Content-Aware Move Tool .....	200
Exploring Eraser Tool .....	202
Using Background Eraser Tool .....	203
Exploring Magic Eraser Tool.....	205
Exploring Blur Tool.....	206
Exploring Sharpen Tool.....	206
Exploring Smudge Tool .....	207
Exploring Dodge Tool .....	207
Exploring Burn Tool.....	207
Exploring Sponge Tool.....	207

**Chapter 9 ■ Using Filters and Automate Commands 209**

Understanding Filters .....	209
Working with Smart Filters.....	210
Using the Filter Gallery.....	213
Applying the Pixelate Filters .....	213

Applying the Blur Filter .....	215
Exploring Render Filters.....	216
Exploring the Vanishing Point Filter.....	217
Using the Liquify Filter.....	217
Working with Actions.....	219
Loading a Built-in Action Set.....	220
Using a Built-In Action.....	221
Creating a Custom Action .....	226
Working with Automate Commands.....	227
Using the Batch Command .....	228
Using the Crop and Straighten Photos Command.....	229

**Chapter 10 ■ Working with 3D Objects 231**

Simplifying 3D Objects.....	231
Creating 3D Objects .....	232
Creating 3D Object from File .....	232
Creating 3D Object from Selected Layer.....	234
Creating 3D object from Selected Path .....	235
Creating 3D Object from Current Selection .....	236
Creating 3D Object from Presets.....	237
Creating 3D Objects from Depth Map using the 3D Panel .....	238
Navigating in the 3D Workspace.....	240
Creating 3D Text.....	244
Modifying Texture of 3D Objects .....	247
Working with 3D Lights.....	248
Rendering and Saving 3D Objects.....	251

**Chapter 11 ■ Working with Video and Animation 253**

Working with Digital Videos .....	253
Importing Existing Video Files .....	254
Creating a Video Layer .....	255
Creating a New Video Project.....	256
Modifying a Video Layer.....	257
Trimming a Video File.....	258
Splitting a Video Layer.....	260

Adding a Transition to a Video Layer.....	261
Adding Text and Vector Elements.....	263
Adding Audio to Video Project.....	266
Rendering and Exporting Video.....	267
Working with Animation.....	268
Creating an Animation.....	269
Exporting an Animation.....	271
<b>Chapter 12 ■ Saving for Print and the Web</b>	<b>273</b>
Selecting a File Format for Saving.....	273
Saving for Print.....	274
Exploring Print Formats.....	274
Printing a Photoshop Document.....	275
Saving for the Web.....	277
Exploring Image Formats for the Web.....	277
Optimizing Animations for the Web.....	278
