Table of Contents

Introduction ..... **xvii**

Chapter 1: Introduction to ERP Systems **1**

ERP Systems and their Origin 2

Prerequisites of an Effective ERP System 3

Major ERP Vendors 5

J. D. Edwards 5

PeopleSoft 5

Oracle Applications 5

Oracle Project Fusion 5

Microsoft Dynamics 6

SAP Business One 6

Summary 6

Chapter 2: ERP Risks - An Auditor's Perspective **7**

Basic Objectives of Auditing and ERP 8

Basic Challenge of ERP Systems 8

ERP Risks for Auditors 8

Lack of Audit Trial 9

Speed of Processing 9

Multiplicity of ERP Systems 9

Reliance on a Single Integrated Location for Data Storage 9

Tight Integration of Business Processes 9

Critical Access to ERP Systems Maintained by Non-Financial People 10

Lack of Proper Training of End Users 10

24X7 Multiple Access 10
Need for Knowledge of the System 10
Extent of Computerization 10
Summary 12

Chapter 3: Introduction to SAP 13

Need of SAP 14
Introducing SAP 14
History of SAP 15
Exploring Evolution of SAP and Various SAP Products 16
SAP R3 or Three-Tier Architecture of SAP System 17
Modular Approach of SAP System 17
Exploring Various SAP Modules 18
Discussing Versions of SAP 19
Introduction to SAP NetWeaver Technology 19
Exploring EHP – The Modern Method of Software Upgrades 21
Looking Forward 21
Summary 21

Chapter 4: Basic Skills Required for Auditors 23

Starting the SAP Server 24
Different Clients Available with SAP 27
Web G2UI 28
SAP GUI 29
Logging into SAP 31
Methods for Executing Transactions in SAP 36
SAP Easy Access Menu 36
TCodes 37
Navigation Skills 38
Basic Navigation Skills 39
Advanced Navigation Skills 48
Identifying the SAP Version in Use 56

Perform the following steps to identify the version of SAP: 56

Summary 58

Chapter 5: Enterprise Structure Elements for Auditors 59

What is an Enterprise Structure? 60

Why is Enterprise Structure needed? 60

Basic Building Blocks of Enterprise Structure 61

Financial Accounting 62

CO – Controlling or Management Accounting 63

MM – Materials Management: 63

SD – Sales and Distribution 64

Basic Concepts of Financial - FI Enterprise Structure 64

The Big Picture 67

Summary 68

Chapter 6: End-to-End Business Cycles for Auditors - O2C & P2P....69

Introduction to Business Processes 70

Procure to Pay – P2P – End-to-End Business Cycle 70

Order to Cash – O2C – End-to-End Business Cycle 72

Order to Cash – O2C Cycle & Procure to Pay – P2P Cycle Execution in SAP 72

O2C Cycle 73

Inquiry 73

Sales Order 75

Delivery 76

Billing 77

P2P Cycle 78

Purchase Order 78

Goods Receipt 79

Displaying Vendor Balance 81

Outgoing Payment 82

Post Outgoing Payment 83

Down Payment Request 84

Post Down Payment 85

Summary 86

Chapter 7: Audit of Integration of SAP Modules 87

Concept of Automatic Account Assignment 88
FI – AA Integration 89
Assign G/L Accounts 91
FI – CO Integration 95
FI – MM Integration 96
FI – SD Integration 99
FI – PP Integration 101
Issue of Raw Material to Production Order 101
Production of Finished Goods 102
Completion of Production 102
Account Assignments for Receipts and Payments 102
Rounding Differences 102
Underpayments 104
Bank Charges 105
Overpayments 107
Exchange Rate Difference 108
Summary 110

Chapter 8: Overview of SAP Implementation Process 111

Please check heading level 111
ASAP Roadmap 112
Project IMG 117
System Landscape 118
Transport Requests 118
Solution Manager – Latest Tool for SAP Implementation 121
Summary 130

Chapter 9: Business Blueprint - Auditors Perspective 131

Business Blueprint 132
Contents of a Business Blueprint Document 133
SAP Blueprint Document 133
Introduction 134
Company Profile 134
Executive Summary 134

System Landscape 134
Financials and Controlling Module 135
P2P – Procure to pay business cycle 135
O2C – Order to Cash business cycle 135
Product Costing 135
Process Mapping/Technical Settings 136
Global Settings 136
Enterprise Structure 136
Financial Accounting Global Settings 136
Global Parameters for Company Code 137
Fiscal Year Variant 137
Document Types 137
Posting Periods 137
Document Number Ranges 137
Posting Keys 137
Field Status Variants 137
Payment transactions 138
Asset Accounting 138
Taxes 138
Foreign payments 138
Consolidation 138
Tolerance Group 138
Fiscal Year Default 138
Default Value Date 138
Taxes on Sales/Purchases 138
General Ledger Accounting 138
Bank Accounting 138
Check Management 139
Account Receivable and Account Payable 139
Account Payable and Receivable Business Transactions 139
Internal Orders 139
Distribution and Assessment cycles 139

Templates 139
Summary 140

Chapter 10: Data Gathering for SAP Audit 141

Configuration Data 142
Company Code Data 142
Company Code Global Parameters 145
Company Code Business Area Postings 147
Controlling Area Basic Data 147
Retained Earnings Account 149
Inter Company Receivable and Payable Clearing Accounts 150
Fiscal Year Variants 151
Company Code and Fiscal Year Assignment 151
Posting Periods 152
Foreign Exchange Differences Postings 152
Changes to FI data 152
Changes to G/L Accounts 152
Changes to Cost Elements 154
Changes to Cost Center 154
Changes to Bank Data 155
Changes to Vendor Master Data 155
Changes to Customer Master Data 157
Summary 158

Chapter 11: SAP Audits and Automatic Configuration Controls 159

Control Description 160
Control Categorization 161
Summary 276

Chapter 12: SUIM for Auditors 277

Executing SUIM – User Information System 278
Roles Assigned to a User 279
Profiles Assigned to a User 282
Users with Access to a Particular TCode 285
Roles with Access to Critical TCodes 287

Roles Used in Composite Roles....289
Admin Users Who Can Create Other Users....292
Summary....294
Chapter 13: AIS – Audit Information System....295
History of the AIS Tool....296
SECR....296
Role-Based Menus....296
Roles for Using AIS....297
Components of AIS....298
Components of a Business Audit of Individual Financial Statements....298
Components of a Business Audit of Consolidated Financial Statements....299
Important Roles for Using System Audit for AIS....300
Summary....300
Chapter 14: LSMW - Legacy System Migration Workbench for Auditors....301
Introduction to LSMW....302
Need for Data Upload....302
Methods Available for Data Upload in SAP System....303
Summary....334
Chapter 15: SAP Reports for Auditors....335
Changes Made to Security Authorizations....336
Multiple Failed Logon Attempts in the Recent Past....338
Changes Made to Security Profiles....340
Default Passwords for Default SAP Users....340
Changes Made to the User's Security....342
Users with Critical Authorizations....343
Users with Incomplete Address Data....344
Users with Critical Combination of Authorizations....345
Summary....346
Chapter 16: GRC - Global Risk Compliance....347
Introduction to GRC....348
Areas Covered By SAP GRC....349

Components of SAP GRC 349
Important Tools of SAP GRC from an Auditor's Point of View 350
Summary 352

Chapter 17: Extracting Data and Dealing with Tables in SAP 353

SE16 - Data Browser 354
SE16N - General Table Display 367
SE12 – ABAP Dictionary 375
SM30 – Maintain Table Views 378
SM31 – Maintain Table Views - Old 380
Summary 380

Glossary 381
