About the Authors iii
Introduction xi

Chapter 1: Introduction to Information Systems and Security 1

1.1 Information Systems 2
Computer Literacy and IS Literacy 3
IS Components 4
Trends in IS 5
IS and Business Organization 7
IS Failures and Causes 8
1.2 Types of IS 9
Operations Support Systems 9
Management Support Systems 10
Knowledge-Based Systems 11
1.3 Development of IS 11
Waterfall Model 12
Prototyping Model 13
Evolutionary Model 14
Spiral Model 14
Incremental Model 15
1.4 Introduction to Information Security 16
Role of Security in Internet and Web Services 17
Securing Web Services 19
1.5 Need for Information Security 19
Benefits of ISMS 20
Security Implication for Organizations 20
Monitoring the Network 21

Understanding Intrusion Detection Systems....22
1.6 Threats to Information Systems....23
1.7 Information Assurance....23
1.8 Cyber Security....28
Viruses, Phishing, and Identity Theft....29
Protection for Applications and Individual Privacy....30
Protection from Online Predators and Cyberbullies....31
1.9 Security Risk Analysis....31
Summary....33
Exercises....34
Multiple Choice Questions....34
Subjective Type Questions....36

Chapter 2: Introduction to Application Security and Counter Measures....37
2.1 Introduction to Application Security....38
Vendor Challenges for Application Security....39
User Challenges for Application Security....40
2.2 Data Security Considerations....41
Data Backup Security Considerations....41
Data Disposal Security Considerations....47
2.3 Security Technologies....48
Firewalls....48
VPN....52
Intrusion Monitoring and Detection....59
Understanding Access Control....70
2.4 Security Threats....73
Viruses....74
Trojan Horses....77
Logic Bombs....78
Worms....78

Antivirus Software 78
Spoofing 80
Trapdoor 81
E-mail Virus 82
Macro Virus 82
Malicious Software 83
Denial-of-Service Attacks 83
2.5 Security Threats to E-Commerce 84
2.6 E-Cash and Electronic Payment System 85
E-Cash 85
Electronic Payment Systems 87
2.7 Credit/Debit/Smart Cards 89
2.8 Digital Signature 90
Requirements of Digital Signature System 90
Components of Digital Signature 91
Technical Issues 91
Legal Issues 92
2.9 Cryptography and Encryption 93
Private Key Encryption 94
Public Key Encryption 94
Understanding Cryptanalysis 95
Describing Code Breaking Methodologies 96
Describing Cryptographic Attacks 96
Summary 97
Exercises 98
Multiple Choice Questions 98
Subjective Type Questions 100

Chapter 3: Introduction to Security Measures 101
3.1 Secure Information System Development 102
Integrating Security at the Initial Phase 105
Integrating Security at the Development Phase 107
Integrating Security at the Implementation Phase 108
Integrating Security at the Maintenance Phase 109
Integrating Security at the Disposal Phase 111
3.2 Application Development Security 112
3.3 Information Security Governance and Risk Management 117
3.4 Security Architecture and Design 119
Secure System Design 119
Secure Hardware System Architecture 120
Secure Operating System and Software Architecture 121
3.5 Security Issues in Hardware, Data Storage, and Downloadable Devices 122
Security Issues with Hardware 123
Security Issues with Storage Devices 124
Security Issues with Downloadable (Peripheral) Devices 125
3.6 Physical Security of IT Assets 125
3.7 Backup Security Measures 128
Summary 130
Exercises 130
Multiple Choice Questions 130
Subjective Type Questions 132

Chapter 4: Introduction to Security Policies and Cyber Laws 133
4.1 Need for an Information Security Policy 134
4.2 Information Security Standards – ISO 134
4.3 Introducing Various Security Policies and Their Review Process 136

WWW Policy 136
E-mail Security Policy 137
Corporate Policy 138
Sample Security Policy 138
Policy Review Process 140
4.4 Introduction to Indian Cyber Law 142
Need for Cyber Laws 143
Jurisprudence of Cyber Law 143
4.5 Objective and Scope of the IT Act, 2000 145
4.6 Intellectual Property Issues 146
4.7 Overview of Intellectual-Property- Related Legislation in India 147
Rationale behind Intellectual Property 148
Underlying Premises of IP 149
Balancing the Rights of the Owner of the IP and the Society 149
Enforcement of IPRS 150
IP and Constitution of India 151
4.8 Patent 151
The Patent System 152
Patentable Invention 153
Nonpatentable Invention 153
Procedure for Obtaining Patent 156
4.9 Copyright 156
4.10 Law Related to Semiconductor Layout and Design 162
4.11 Software License 163
Summary 164
Exercises 164

Multiple Choice Questions 164
Subjective Questions 166

Model Questions 167

Index 209
