## Core Java – An Integrated Approach

|  |            |
|--|------------|
| Chapter 1: All about Networks.....                       | 1          |
| Chapter 2: Introduction to Java .....                    | 7          |
| Chapter 3: First Step towards Java Programming .....     | 15         |
| Chapter 4: Naming Conventions and Data Types .....       | 27         |
| Chapter 5: Operators in Java .....                       | 35         |
| Chapter 6: Control Statements in Java .....              | 49         |
| Chapter 7: Input and Output .....                        | 69         |
| Chapter 8: Arrays .....                                  | 85         |
| Chapter 9: Strings .....                                 | 101        |
| Chapter 10: StringBuffer and StringBuilder .....         | 113        |
| Chapter 11: Introduction to OOPs .....                   | 119        |
| Chapter 12: Classes and Objects .....                    | 127        |
| Chapter 13: Methods in Java.....                         | 141        |
| Chapter 14: Relationship Between Objects.....            | 171        |
| Chapter 15: Inheritance.....                             | 183        |
| Chapter 16: Polymorphism .....                           | 197        |
| Chapter 17: Type Casting .....                           | 207        |
| Chapter 18: Abstract Classes .....                       | 221        |
| Chapter 19: Interfaces .....                             | 231        |
| Chapter 20: Packages .....                               | 243        |
| Chapter 21: Exception Handling.....                      | 263        |
| Chapter 22: Wrapper Classes .....                        | 281        |
| Chapter 23: The Collection Framework .....               | 295        |
| Chapter 24: Streams and Files .....                      | 333        |
| Chapter 25: Networking in Java .....                     | 359        |
| Chapter 26: Threads.....                                 | 375        |
| Chapter 27: Graphics Programming using AWT .....         | 411        |
| Chapter 28: Graphics Programming using Swing.....        | 461        |
| Chapter 29: Graphics Programming – Layout Managers ..... | 525        |
| Chapter 30: Applets.....                                 | 547        |
| Chapter 31: Generic Types .....                          | 565        |
| Chapter 32: Java Database Connectivity.....              | 573        |
| Chapter 33: Enumerations and Annotations .....           | 621        |
| Chapter 34: Lambda Expressions.....                      | 637        |
| Chapter 35: Streams API .....                            | 661        |
| Chapter 36: Joda-Time .....                              | 669        |
| <b>Index I - Question Index .....</b>                    | <b>675</b> |
| <b>Index II - Program Index .....</b>                    | <b>683</b> |

# Table of Contents

|   |            |
|---|------------|
| <b>Preface</b> .....  | <b>xxi</b> |
| <b>Chapter 1: All about Networks</b> .....                  | <b>1</b>   |
| What Comprises the Internet? .....                          | 2          |
| How does Internet Function? .....                           | 3          |
| Software Development for Internet.....                      | 3          |
| <b>Chapter 2: Introduction to Java</b> .....                | <b>7</b>   |
| Features of Java .....                                      | 7          |
| The Java Virtual Machine.....                               | 11         |
| Differences between C++ and Java.....                       | 13         |
| Parts of Java.....  | 14         |
| <b>Chapter 3: First Step towards Java Programming</b> ..... | <b>15</b>  |
| API Document.....   | 16         |
| Starting a Java program .....                               | 16         |
| Importing classes .....                                     | 17         |
| Formatting the Output .....                                 | 23         |
| <b>Chapter 4: Naming Conventions and Data Types</b> .....   | <b>27</b>  |
| Naming Conventions in Java .....                            | 27         |
| Data Types in Java .....                                    | 28         |
| Integer Data Types .....                                    | 29         |
| Float Data Types .....                                      | 29         |
| Character Data Type .....                                   | 30         |
| String Data Types.....                                      | 31         |
| Boolean Data Types.....                                     | 31         |
| Literals.....   | 31         |
| Integer Literals .....                                      | 32         |
| Float Literals .....  | 32         |
| Character Literals .....                                    | 32         |
| String Literals .....                                       | 32         |
| Boolean Literals .....                                      | 32         |
| Binary Literals.....  | 33         |
| Using Underscore in Numeric Literals .....                  | 33         |
| <b>Chapter 5: Operators in Java</b> .....                   | <b>35</b>  |
| Operators.....  | 35         |
| Arithmetic Operators.....                                   | 35         |
| Unary Operators .....                                       | 36         |
| Increment Operator (++) .....                               | 36         |
| Decrement Operator (-) .....                                | 38         |
| Assignment Operator (=).....                                | 38         |
| Relational Operator .....                                   | 39         |

|  |            |
|--|------------|
| Logical Operators .....                                | 40         |
| Boolean Operators.....                                 | 40         |
| Bitwise Operators.....                                 | 40         |
| Ternary Operator or Conditional Operator ( ? : ).....  | 45         |
| instanceof Operator.....                               | 46         |
| new Operator.....                                      | 47         |
| Cast Operator.....                                     | 47         |
| Priority of Operators .....                            | 47         |
| <b>Chapter 6: Control Statements in Java .....</b>     | <b>49</b>  |
| if...else Statement.....                               | 50         |
| do...while Loop .....                                  | 51         |
| while Loop .....                                       | 52         |
| for Loop .....   | 53         |
| Nested for Loops.....                                  | 56         |
| for-each Loop .....                                    | 58         |
| switch Statement.....                                  | 59         |
| break Statement .....                                  | 61         |
| continue Statement .....                               | 62         |
| return Statement.....                                  | 65         |
| <b>Chapter 7: Input and Output.....</b>                | <b>69</b>  |
| Accepting Input from the Keyboard .....                | 69         |
| Accepting a Single Character from the Keyboard .....   | 71         |
| Accepting a String from Keyboard.....                  | 72         |
| Accepting an Integer Value from the Keyboard .....     | 73         |
| Accepting a Float Value from Keyboard.....             | 74         |
| Accepting a Double Value .....                         | 74         |
| Accepting Other Types of Values.....                   | 74         |
| Accepting Different Types of Inputs in a Line.....     | 77         |
| Reading Input with java.util.Scanner Class.....        | 82         |
| Displaying Output with System.out.printf() .....       | 83         |
| Displaying Formatted Output with String.format() ..... | 84         |
| <b>Chapter 8: Arrays.....</b>                          | <b>85</b>  |
| Types of Arrays .....                                  | 85         |
| Single Dimensional Arrays (1D array) .....             | 86         |
| Multi Dimensional Arrays (2D, 3D,... arrays) .....     | 90         |
| Three dimensional arrays (3D array) .....              | 93         |
| arrayname.length .....                                 | 95         |
| Command Line Arguments .....                           | 95         |
| Jagged Arrays.....                                     | 98         |
| <b>Chapter 9: Strings.....</b>                         | <b>101</b> |
| Creating Strings.....                                  | 101        |
| String Class Methods.....                              | 102        |

---

|  |            |
|--|------------|
| String Comparison.....                                     | 106        |
| Immutability of Strings.....                               | 109        |
| <b>Chapter 10: StringBuffer and StringBuilder.....</b>     | <b>113</b> |
| Creating StringBuffer Objects.....                         | 113        |
| StringBuffer Class Methods.....                            | 114        |
| StringBuilder Class.....                                   | 117        |
| StringBuilder Class Methods.....                           | 118        |
| <b>Chapter 11: Introduction to OOPs.....</b>               | <b>119</b> |
| Problems in Procedure Oriented Approach.....               | 120        |
| Features of Object Oriented Programming System (OOPS)..... | 120        |
| Class/object.....  | 121        |
| Encapsulation.....   | 123        |
| Abstraction.....   | 124        |
| Inheritance.....   | 124        |
| Polymorphism.....  | 125        |
| <b>Chapter 12: Classes and Objects.....</b>                | <b>127</b> |
| Object Creation.....                                       | 128        |
| Initializing the Instance Variables.....                   | 131        |
| Access Specifiers.....                                     | 133        |
| Constructors.....  | 134        |
| <b>Chapter 13: Methods in Java.....</b>                    | <b>141</b> |
| Method Header or Method Prototype.....                     | 141        |
| Method Body.....   | 142        |
| Understanding Methods.....                                 | 143        |
| Static Methods.....  | 146        |
| Static Block.....  | 150        |
| The keyword ‘this’.....                                    | 153        |
| Instance Methods.....                                      | 154        |
| Passing Primitive Data Types to Methods.....               | 155        |
| Passing Objects to Methods.....                            | 156        |
| Passing Arrays to Methods.....                             | 159        |
| Recursion.....   | 162        |
| Factory Methods.....                                       | 164        |
| Creating our own factory methods.....                      | 167        |
| Methods with Variable Arguments.....                       | 169        |
| <b>Chapter 14: Relationship Between Objects.....</b>       | <b>171</b> |
| Relating Objects using References.....                     | 171        |
| Inner Class.....   | 175        |
| Anonymous Inner Class.....                                 | 179        |
| <b>Chapter 15: Inheritance.....</b>                        | <b>183</b> |
| Inheritance.....   | 183        |
| The Keyword ‘super’.....                                   | 188        |

|   |            |
|---|------------|
| The Protected Specifier .....               | 192        |
| Types of Inheritance .....                  | 194        |
| <b>Chapter 16: Polymorphism .....</b>       | <b>197</b> |
| Polymorphism with Variables .....           | 197        |
| Polymorphism using Methods.....             | 198        |
| Dynamic Polymorphism .....                  | 198        |
| Static Polymorphism .....                   | 202        |
| Polymorphism with Static Methods .....      | 202        |
| Polymorphism with Private Methods.....      | 203        |
| Polymorphism with Final Methods .....       | 204        |
| final Class .....                           | 205        |
| <b>Chapter 17: Type Casting.....</b>        | <b>207</b> |
| Types of Data Types.....                    | 207        |
| Casting Primitive Data Types.....           | 208        |
| Casting Referenced Data Types .....         | 209        |
| Generalization and Specialization .....     | 209        |
| The Object Class.....                       | 215        |
| Cloning the Class Objects .....             | 218        |
| <b>Chapter 18: Abstract Classes.....</b>    | <b>221</b> |
| Abstract Method and Abstract Class .....    | 222        |
| <b>Chapter 19: Interfaces .....</b>         | <b>231</b> |
| Interface .....                             | 231        |
| Multiple Inheritance using Interfaces ..... | 237        |
| Callbacks using Interfaces.....             | 239        |
| Abstract Classes vs. Interfaces.....        | 241        |
| <b>Chapter 20: Packages.....</b>            | <b>243</b> |
| Package .....                               | 243        |
| Different Types of Packages .....           | 244        |
| Built-in Packages .....                     | 244        |
| User-defined Packages .....                 | 245        |
| The JAR Files.....                          | 251        |
| Interfaces in a Package .....               | 253        |
| Creating Sub Package in a Package .....     | 254        |
| Access Specifiers in Java.....              | 256        |
| Creating API Document .....                 | 259        |

| An Applet with Swing Components .....                             | 552        |
| Animation in Applets .....  | 555        |
| A Simple Game with an Applet .....                                | 558        |
| Applet Parameters .....   | 561        |
| Playing Audio in Applets .....                                    | 562        |
| <b>Chapter 31: Generic Types .....</b>                            | <b>565</b> |
| Generic Class .....   | 565        |
| Generic Method .....  | 568        |
| Generic Interface .....   | 569        |
| <b>Chapter 32: Java Database Connectivity .....</b>               | <b>573</b> |
| Database Servers .....  | 573        |
| Database Clients .....  | 574        |
| JDBC (Java Database Connectivity) .....                           | 575        |
| Working with Oracle Database .....                                | 576        |
| Working with MySQL Database .....                                 | 578        |
| Stages in a JDBC Program .....                                    | 580        |
| Registering the Driver .....                                      | 581        |
| Connecting to a Database .....                                    | 582        |
| Preparing SQL Statements .....                                    | 583        |
| Using jdbc-odbc Bridge Driver to Connect to Oracle Database ..... | 588        |
| Retrieving Data from MySQL Database .....                         | 590        |
| Retrieving Data from MS Access Database .....                     | 592        |
| Improving the Performance of a JDBC Program .....                 | 594        |
| (a) Affect of Driver .....  | 595        |
| (b) Affect of setFetchSize() .....                                | 597        |
| (c) Affect of PreparedStatement .....                             | 598        |

|   |            |
|---|------------|
| Stored Procedures and CallableStatement.....                  | 601        |
| Types of Result Sets.....                                     | 605        |
| Storing Images into Database .....                            | 609        |
| Retrieving Images from Database .....                         | 610        |
| Storing a file into database .....                            | 611        |
| Retrieving a File from the Database.....                      | 613        |
| ResultSetMetaData .....                                       | 614        |
| DatabaseMetaData .....  | 616        |
| Types of JDBC Drivers.....                                    | 618        |
| <b>Chapter 33: Enumerations and Annotations.....</b>          | <b>621</b> |
| Enumerations .....  | 621        |
| Annotations.....  | 627        |
| Custom Annotations .....                                      | 631        |
| <b>Chapter 34: Lambda Expressions .....</b>                   | <b>637</b> |
| Lambda Expressions and Functional interfaces .....            | 637        |
| Points regarding construction of the lambda expressions ..... | 638        |
| Functional interface .....                                    | 639        |
| Accessing variables using Lambda expressions .....            | 643        |
| The need of lambda expressions .....                          | 644        |
| Passing lambda expressions as arguments to a method .....     | 645        |
| Passing lambda expressions to objects .....                   | 646        |
| Default Methods .....   | 651        |
| Predicates .....  | 654        |
| Joining the predicates .....                                  | 656        |
| Functions .....   | 657        |
| Double colon operator (::) .....                              | 658        |
| <b>Chapter 35: Streams API.....</b>                           | <b>661</b> |
| Creating streams .....  | 661        |
| Operations on streams .....                                   | 665        |
| filter() method .....   | 666        |
| map() method.....   | 666        |
| sorted() method.....  | 666        |
| forEach() method .....  | 667        |
| count() method .....  | 667        |
| collect() method .....  | 667        |
| <b>Chapter 36: Joda-Time .....</b>                            | <b>669</b> |
| Joda-Time .....   | 669        |
| Important classes in java.time package .....                  | 670        |
| Method naming conventions.....                                | 670        |
| <b>Index I - Question Index .....</b>                         | <b>675</b> |
| <b>Index II - Program Index .....</b>                         | <b>683</b> |
